**Re: TDS Telecommunications Corp. and TDS Metrocom LLC:
Certifications of CPNI Filing (Feb. 6, 2006); EB Docket No. 06-36;
EB-06-TC-060**

Dear Ms. Dortch:

Pursuant to the Commission's Public Notice of January 30, 2006 (DA 06-223) and Public Notice of February 2, 2006 (DA 06-258), attached please find signed CPNI compliance certificates of officers of TDS Telecommunications Corporation ("TDS Telecom") and TDS Metrocom LLC ("TDS Metrocom") (collectively, "the Companies").¹ In accordance with Section 64.2009(e) of the Commission's rules, the attached certificates are executed by corporate officers as agents of TDS Telecom and TDS Metrocom, respectively, and verify that the Companies have established operating procedures adequate to ensure compliance with the rules of the Commission to safeguard customer proprietary network information ("CPNI"). With this letter, the Companies also provide information explaining how its operating procedures ensure that it is in compliance with the CPNI rules.

In accordance with Commission's CPNI rules, the Companies use CPNI solely as permitted, (a) to market service offerings that are within the category of service to which the customer already subscribes, (b) to market services formerly known as adjunct-to-basic services, such as, speed dialing, call blocking, call return, repeat dialing, call waiting, caller I.D. and call forwarding, and/or (c) on a per-call basis following express customer approval of the use of CPNI during that call for the specified purpose.

Protecting customer privacy is a fundamental policy of the Companies. First, except where legally required, the Companies do not disclose CPNI to third parties. Second, the Companies' employee training programs and related written materials instruct all employees on the proper handling and protection of private customer information. Such training is conducted both upon an employee's arrival and on an

annual basis. It is a strict policy of the Companies that failure to comply with the policy will result in serious disciplinary action which may include discharge. To further protect proprietary information, the Companies narrowly restrict employee access to the secure systems that contain CPNI.

Respectfully submitted,
